# FAQs on QTP Training On-Demand Methodology

## What do you mean by QTP training On-Demand?

As the name suggests, this training is available on-demand. These are the high quality pre-recorded videos for QTP training which can be accessed by anyone, sitting anywhere in the world. 24\*7.

## Do I need to be online at any specific time?

No. You can watch the lessons at leisure. You can log-in and go through the lessons at your own pace and comfort.

## What do I need to view the lessons?

- A computer with a modern browser (IE7,IE8, Firefox or Chrome)
- Any version of QTP 10.0 or above. We will provide you step by step instructions to download and install the latest version of QTP on your machine.
- Speakers or ear phones that can give you good quality output

## I am very new to VB Scripting/Programming. Will I be able to cope up?

Absolutely. A part of our 3rd day's training session is dedicated for VBScript where we explain the nuts and bolts of VBScript right from the basics.

## Who are the target audience for this training course?

This training course is designed for people with beginner- to-intermediate level of knowledge in QuickTest Pro. Having said that, many important topics like Expert View, VBScript and Descriptive Programming that we cover in this training are covered during "advanced classes" in other training institutes.

## With which versions of QTP are your videos compatible?

These videos were created using QTP 10.0 and QTP 11.0. However if you have QTP v9.0 and above, it will work well enough for the training. (Our scripts were developed on QTP 10.0/11.0 and they will not work on earlier versions)

## Will I get access to all lessons at once?

To make sure we do not overwhelm you with lessons and topics we are going to drip-feed lessons to you.

You will get lessons across a span of 7 days. 1<sup>st</sup> set of lessons will be delivered as soon as you register, 2<sup>nd</sup> set of lessons will be delivered on 3<sup>rd</sup> day, 3<sup>rd</sup> set of lessons on 5<sup>th</sup> day and 4<sup>th</sup> set on 7<sup>th</sup> day. After that you will have access to all video lessons for 365 days (1 year).

**For Example:** If you register on July 1st, you will get 1<sup>st</sup> set of lessons on July 1st, 2<sup>nd</sup> set of lessons on July 3rd, 3<sup>rd</sup> set of lessons on July 5th and 4<sup>th</sup> set of lessons on July 7th. We will inform you on your registered email address as soon as the lessons are available for you.

## For how much time will I get access to videos?

You have access to all the videos for 365 days (1 year) from the date of registration. You can repeat and view them as often as you wish.

## What if in case I wish to take an extension after the initial 365 days?

You can take an extension for another 365 days by paying 1/3rd of the current cost of QTP Training. (Current cost is the cost of QTP Training on the day when you decide to avail the extension)

**For Example:** In case you wish to take an extension for training on Jan 1st and the cost of QTP training on that day is \$369, you would just need to pay \$123 to avail the extension for another 365 days.

## When will I get access to QBOK and QTP scripts?

You will get an immediate access to them after registration.

## FAQs on Payments

### How can I register?

You need to click on the Order Now button on this page

<http://www.LearnQTP.com/training/> and you can pay using your credit card.

All payments are processed through highly secured PayPal payment gateway.

## **How can I make sure that I have registered successfully?**

As soon as your payment is processed, you will be redirected to your member's area where you will get an instant access to QTP training material. You will also get an email asking for confirmation, that you are indeed the owner of that email account. You SHOULD click on the given link and confirm, to get training related emails from us. (Please do keep an eye on your spam/bulk folder)

The whole process should not take more than 5 mins.

PS: If you are paying using a credit card, please be aware that you will see a charge in the name of Ajonit Software LLP/PayPal.

## **Are there any hidden costs?**

No. The price mentioned on this page <http://www.LearnQTP.com/training/> is inclusive of all taxes.

## **Our company does not have the facility to transact in PayPal, what payment options do we have?**

You can pay via check (FedEx), wire transfer or credit card (VISA, Master, American Express, Discover). Contact us at [admin@learnqtp.com](mailto:admin@learnqtp.com) in case you have any questions.

## **Do you allow refunds? What's the refund policy?**

Training once "consumed" cannot be taken back, so we don't allow refunds. We provide sample videos on <http://www.LearnQTP.com/training/> to give you enough to go upon for making an informed decision. We encourage you to check that out before joining this training.

In rare and unforeseen circumstances, we may choose to provide a refund at our discretion. In all such cases a 10% fee will be deducted to meet our payment processor and other operational costs.

## **FAQs on Topics and Syllabus**

### **Will I get a chance to do hands-on on QTP tool?**

Yes, we will provide you with the assignments for each day. Assignments will be a mix of theory and practical questions. You would need to complete the

assignments using QTP tool. You can check your answers using the answers-document that we will send with the next day's videos.

## **What is the syllabus for this course?**

Please refer this document <http://www.learnqtp.com/QTPTrainingDoc.pdf>

## **Will I be able to download the video lessons on my computer?**

For piracy concerns, we are not able provide lessons in downloadable format. In fact, we have various security mechanisms in place to ensure that people do not download our videos. Any attempts of doing so will result in your account being cancelled and any fee forfeited.

## **Other FAQs**

### **Will you provide the QTP software and help in installing the software?**

We will provide you step-by-step instructions to download and install the 30 days trial of QTP 11.0 software.

### **I have installed QTP on my machine earlier and my trial period has ended. Can I still install QTP?**

Yes, depending upon your situation we provide you various *legal* ways on how to extend your QTP trial subscription. The instructions will be available in your member's area.

### **I would like to buy the QTP software for my personal use after the trial, where can I buy it from?**

QTP software is sold by HP/HP vendors. Normally QTP is sold to organizations only and not to individuals. Also, QTP is prohibitively expensive (8000 USD - 12000 USD).

### **Can I see some feedback this training course has received from your past trainees?**

Sure. Please go to <http://www.learnqtp.com/training/> , scroll down a bit and refer to the left side for feedback from our past trainees.

## **Will you provide me the course completion certificate?**

A soft copy of QTP course completion certificate duly signed by me will be available on request. It will be provided without any extra charges. You can ask for your certificate by emailing us 30 days after your date of registration.

## **Can I share my user credentials with a friend or a colleague?**

NO. One user id should be used by one person only. We have various security mechanisms in place to detect multiple usage of a user-id. Any attempts of doing so will result in your account being cancelled and any fee forfeited. However you are welcome to view the videos on your personal and/or work computers. [These security measures are for those 1% folks who try to game the system.]

## **What is an ideal internet connection speed to stream online videos?**

1Mbps and more is considered a good speed. Most ISPs (Internet Service Providers) provide more than 2Mbps internet speed these days. You can check your internet speed using this website <http://speedtest.net/>

## **I have some questions other than the one provided here. Where can I ask those?**

You can email us your questions to [admin@learnqtp.com](mailto:admin@learnqtp.com)
